

David Forbes

David Forbes is the Glaswegian talent and has been a DJ for over 10 years. He started his musical career as the resident record spinner of the now infamous Glasgow club Hanger 13.

David Forbes recording career began in 1993 with releases for the likes of Combined Forces in Holland and the legendary Noom in Germany. He goes on to record for leading Scottish label Limbo under the name of "Propulsion" and "Tecra" where he enjoys the attention of leading DJs such as Nick Warren, Christopher Lawrence and John "00"

Fleming. His tracks were regularly featured in all of the major compilation titles such as Global Underground and Reactivate. His collaboration with leading producer Mallorca Lee ("Ultrasonic") took him to write and produce three album tracks for dance sensation Public Domain.

With over thirty releases under his belt, and two major label deals in the works, David Forbes is proving that his production talents are worth looking out for. David Forbes has cemented himself as one of the top producers and dance DJs in the past 25 years with a consistency others can only dream of. With tracks signed to Aria (Forbes own label), Subculture, Damaged, Armada, WAO138, Outburst, Vandit, Blackhole, AVA, Captivaiting, Spinnin, S107, Reset, 68Recordings, Coldharbour, Fraction, Detox, Oxygen, 2play, Serious, MOS, Silicon, Extravaganza & Subliminal to name a few.

David is one of Scotland's most highly respected producers and DJs, he is a mentor to many young aspiring DJs and producers. David has led electronic music production workshops which focus on bringing opportunities to those from disadvantaged backgrounds. In addition, David is a regular on popular Glasgow based electronic community radio station Groove City Radio.

'Disillusioned' is constructed around a pulsing, arpeggiated bass-line made from multiple, filtering layers, which creates a locked-in groove on the floor. A neat dialogue sample makes it's statement at the break, while analogue Pink Floyd-esque tones come to the fore - driving the track to it's grinding peak
